Dear Parent/Carer(s),

Re: Year 11 Chemistry Teaching

We are writing to inform you about changes to chemistry teaching for your Year 11 students. In order to best prepare students for their GCSEs Dr Holloway will complete the delivery of the chemistry curriculum, and then work with students on their subject-specific exam technique and finally revision in the weeks remaining before their GCSE exams.

Timetables will be adjusted to accommodate this change. There may be occasional lessons where classes are taught separately to allow the safe completion of practical work. Students will be informed in advance when this is planned.

Dr Holloway has in-depth experience of the qualification and is well placed to maximise outcomes for our chemistry students. have the best possible opportunity in their exam.

We appreciate your support with this change in arrangements. as we work to give the students the best chance of success in their final exams.

Yours sincerely

Mr D Barrett
Subject Leader for Science
